Snow Drive[®]
WINTER TRACTION DEVICES

Catene da neve

Con la scadenza del 30 novembre 2020, tutti gli stati membri dell'UE hanno aggiornato e ripubblicato i propri standard nazionali in merito all'obbligo delle catene da neve. La norma EN 16662-1:2020 contiene norme standardizzate per tutti i dispositivi di protezione contro il pattinamento delle ruote in relazione alla loro sicurezza, qualità e anche ai corrispondenti requisiti di prestazione.

Dispositivi di aderenza supplementare omologati secondo le norme:

EN 16662-1 : 2020
ÖNORM V5117 : 2021

L'acciaio, gli spessori, la cementazione e tutti i processi produttivi sono garantiti da sistemi aziendali con processi di gestione e controllo qualità certificati ISO 9001 da oltre 20 anni.

TRUCK snow chains

In Europa non esiste una normativa unica che regola l'utilizzo delle catene da neve, infatti ogni singolo stato ha una propria legislazione in materia. Pertanto negli stati europei si possono verificare le seguenti situazioni:

- obbligo di catene a bordo
- obbligo di catene a bordo nel periodo invernale
- nessun obbligo di catene a bordo

Si consiglia comunque, prima di iniziare un viaggio, di reperire le opportune informazioni sul paese di destinazione (e dei paesi di transito).

In ogni caso, per fugare ogni dubbio, per la propria sicurezza e per quella degli altri, tenere sempre le catene a bordo nei periodi invernali.

Pilot-Pro

COPPIA CATENE DA NEVE A MONTAGGIO ESTERNO

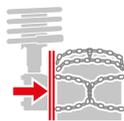

- Zero mm di ingombro interno, indicata per le vetture non-catenabili o con severe limitazioni di ingombro, tipiche delle vetture sportive di ultima generazione.
- Si fissano ad uno dei bulloni originali del cerchio (non a quelli antifurto). Compatibile con bulloni da 17-19-21-22 mm.
- Gli elementi di regolazione permettono di adattarsi perfettamente a diverse misure di pneumatico.
- Battistrada composto da un monoblocco di catena circolare, senza interruzioni e senza giunzioni, mantenuto in posizione da 4 piastre in resina plastica con inserti rompighiaccio in acciaio temprato.

PAIR OF SNOW CHAINS FOR EXTERNAL MOUNTING

- Zero millimeters of internal dimensions, suitable for non-chainable cars or with severe limitations of overall dimensions typical of the latest generation sports cars.
- Fits to one of the original wheel bolts (not to the anti-theft ones). Compatible with 17-19-21-22 mm bolts.
- Adjustment elements allow for perfect adaptation to different tire sizes.
- Tread composed of a single-block of circular chain, without interruptions and without joints, held in position by 4 plastic resin plates with ice-breaking inserts in hardened steel.

COPPIA CATENE DA NEVE A MAGLIA SPECIALE, 7 MM DI INGOMBRO INTERNO

Ideali per tutte le vetture con problema di catenabilità.

- Prodotte in acciaio speciale al manganese cementato per una maggiore resistenza all'usura.
- Sistema di auto-tensionamento: dopo il montaggio ed il tensionamento manuale, la catena può tendersi ulteriormente in modo automatico evitando ulteriori fermate durante la guida.
- Battistrada a rombo con maglie ritorte.
- Cavo interno flessibile per un montaggio facile senza sollevare e spostare la vettura.
- Cricchetto e ganci di rinvio in resina composita ideali per non graffiare i cerchi in lega.
- Guanti di protezione e maglie di riparazione in dotazione.

PAIR OF SNOW CHAINS WITH SPECIAL TWISTED LINKS, 7 MM ULTRA-SLIM FIT

Special series for vehicles with chain restrictions.

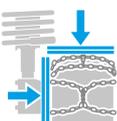

- Manganese steel for extra wear and tear resistance.
- Self-tensioning system: after the installation and the first manual tensioning, the chains tighten automatically while driving.
- No more stops for tensioning.
- Hardened special alloy steel with diamond pattern grip.
- Flexible internal cable for an easy and quick installation without moving or lifting the car.
- Composite plastic tensioning ratchet, ideal for preventing scratches on alloy wheels.

COPPIA DI CALZE DA NEVE PER AUTO

- Approvate dall'ente di certificazione EN16662-1:2020.
- Facili e veloci da montare, anche in condizioni meteo avverse.
- Incrementano l'efficienza dei sistemi elettronici di sicurezza (ABS, ESP, ETS, ASR, DSC,...).
- Adatte a tutti i veicoli con poco spazio tra ruota, carrozzeria ed ammortizzatori.
- Confortevoli durante la guida, non provocano vibrazioni o rumori (velocità massima 50 km/h).
- Autocentranti, non danneggiano i cerchi.
- Leggere e facili da riporre, riutilizzabili e lavabili in lavatrice.

PAIR OF SNOW SOCKS FOR CARS

- Approved by EN16662-1:2020.
- Perfect temporary winter aid for vehicles.
- Easy to mount and dismount even in cold and difficult weather.
- Works on all vehicles with low clearance between the tyre and the body, as well as with all electronic safety systems (ABS, ESP, ETS, ASR, DSC,...).
- Comfortable while driving, does not cause noise or vibrations (maximum speed 50 km/h).
- Self-centering, no damage to alloy wheels.
- Lightweight and easy to store, reusable and machine washable.

Borsina / Bag 12

UTILIZZABILI PER L'OSSERVAZIONE DELL'OBBLIGO CATENE A BORDO

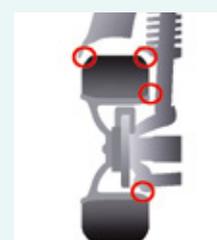

Il nuovo standard descrive i requisiti minimi per la sicurezza operativa, le prestazioni e la durata dei dispositivi di trazione invernale, indipendentemente dal materiale di cui sono fatti i dispositivi di trazione. Ciò significa che i dispositivi di trazione in tessuto, le catene da neve in gomma e metallo saranno d'ora in poi certificati secondo lo stesso standard e dovranno soddisfare gli stessi requisiti minimi. (Eccetto Austria)

The new standard describes minimum requirements for operational safety, performance and durability of winter traction devices - regardless of the material such traction devices are made of. This means textile traction devices, rubber and metal snow chains will from now on be certified according to the same standard and must meet the same minimum requirements. (Except Austria)

VELOCI, PRATICHE E SICURE

Installazione facile e veloce che garantisce la massima sicurezza e migliora l'efficienza dei sistemi elettronici del veicolo.

IDEALI PER VETTURE DI ULTIMA GENERAZIONE

Adatte per tutti i veicoli con poco spazio tra ruota, parti meccaniche e carrozzeria.

S-12

COPPIA CATENE DA NEVE PER SUV, 4X4, FUORISTRADA, 12 MM DI INGOMBRO INTERNO

Ideale per tutti i veicoli con spazio limitato tra pneumatico e parti meccaniche.

- Doppio rinforzo centrale per una miglior aderenza.
- Sistema di auto-tensionamento: dopo il montaggio ed il tensionamento manuale, la catena può tendersi ulteriormente in modo automatico evitando ulteriori fermate durante la guida.
- Battistrada a rombo.
- Maglie in acciaio cementato con sezione a "D", utilizzabili da entrambe le parti.
- Cavo interno flessibile per un montaggio facile.
- Cricchetto e ganci di rinvio in resina composita ideale per non graffiare i cerchi in lega.
- Guanti di protezione e maglie di riparazione in dotazione.

PAIR OF SNOW CHAINS FOR SUV, 4X4, AND OFF-ROAD VEHICLES, 12 MM EXTRA-STRONG LINKS

Specific for vehicles with limited gap between tire and mechanical parts.

- New self-tensioning system.
- Hardened special alloy steel with diamond pattern grip.
- Short D-section links usable on both sides.
- Flexible internal cable for an easy and quick installation.
- Composite plastic tensioning ratchet, ideal for preventing scratches on alloy wheels.
- Protection gloves and spare links included.

Heavy Duty

COPPIA CALZE DA NEVE SPECIFICHE PER SUPERCAR, MAXI-SUV, FUORISTRADA, FURGONI E CAMPER

- Approvate EN16662-1:2020.
- Utilizzabili per l'osservanza dell'obbligo catene a bordo
- Facili e veloci da montare, anche in condizioni meteo avverse.
- La tecnologia del tessuto tridimensionale consente un'ottima trazione e aderenza.
- Montaggio previsto solo per veicoli dotati di ABS.
- Confortevoli durante la guida, non provocano vibrazioni o rumori.
- Le calze SnowDrive sono progettate per essere utilizzate in situazioni di nevicata normali o eccezionali su strade con neve fresca o ghiacciata.
- Realizzate in tessuto rinforzato.
- Autocentranti, non danneggiano i cerchi.

PAIR OF SNOW SOCKS SPECIFIC FOR SUPERCARS, LARGE SUV, OFFROAD CARS, VANS AND MOTORHOMES

- Approved by EN16662-1:2020.
- Perfect temporary winter aid for vehicles.
- Easy to mount and dismount even in cold and difficult weather.
- Three-dimensional fabric technology allows for excellent traction and grip.
- Applicable for vehicles equipped with ABS only.
- Comfortable while driving, does not cause noise or vibrations.
- The SnowDrive socks are specifically designed to be used in situations of both normal or exceptional snowfall on roads with fresh or frozen snow.
- Made of reinforced fabric.
- Self-centring, do not damage the rims.

Borsina / Bag 10

UTILIZZABILI PER L'OSSERVANZA DELL'OBBLIGO CATENE A BORDO

Il nuovo standard descrive i requisiti minimi per la sicurezza operativa, le prestazioni e la durata dei dispositivi di trazione invernale, indipendentemente dal materiale di cui sono fatti i dispositivi di trazione. Ciò significa che i dispositivi di trazione in tessuto, le catene da neve in gomma e metallo saranno d'ora in poi certificati secondo lo stesso standard e dovranno soddisfare gli stessi requisiti minimi. (Eccetto Austria)

The new standard describes minimum requirements for operational safety, performance and durability of winter traction devices - regardless of the material such traction devices are made of. This means textile traction devices, rubber and metal snow chains will from now on be certified according to the same standard and must meet the same minimum requirements. (Except Austria)

IMPORTANTE

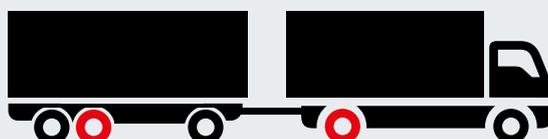

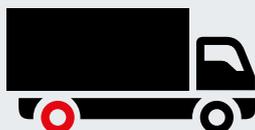

Consultare il libretto di uso e manutenzione del veicolo e verificare le indicazioni relative al montaggio delle catene da neve

Le catene vanno sempre montate sulle ruote motrici. Se il veicolo è a trazione integrale consultare il libretto di uso e manutenzione

Per percorsi in montagna, specialmente in discesa, si consiglia di montare almeno una catena sull'asse di sterzo.

Le catene sono da montare sull'asse motrice e sul penultimo asse del rimorchio.

con guida alla scelta del dispositivo

Individuare le tre misure del pneumatico:

indica la larghezza
 indica la spalla in percentuale
 indica il diametro del cerchio in pollici
205/55-16

Ogni confezione contiene:

- Libretto plastificato con le istruzioni di montaggio
- Maglie di ricambio
- Guanti in plastica
- Certificato di omologazione

Each box contains:

- Plastic-coated instruction manual
- Spare links for repair
- PE gloves
- Copy of approval certificates.

Imballo da 3 serie

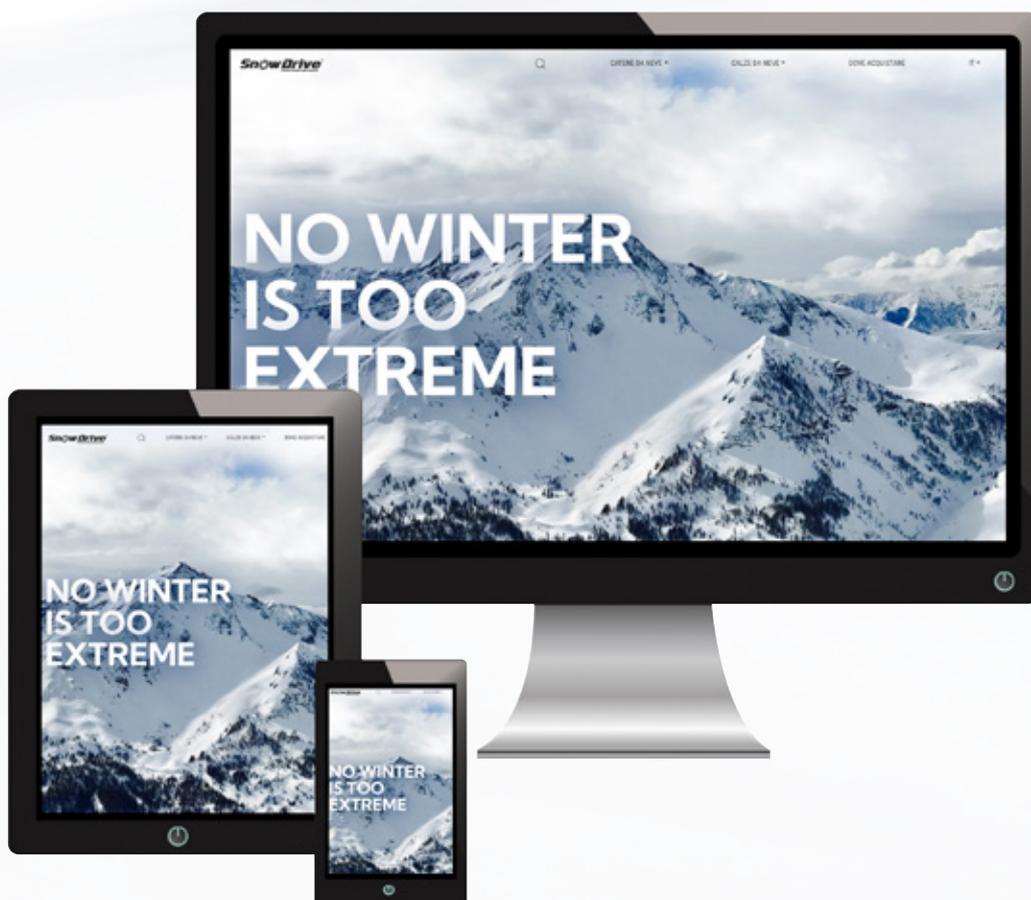

Imballo da 1 serie

In caso di smarrimento della confezione, è possibile risalire alla misura della catena leggendo le cifre stampate sul gancio verde (togliere lo zero dal codice stampigliato; esempio: 80 corrisponde alla misura 8)

In absence of box or label size of the chain can easily be identified by reading the number stamped on the green hook (remove the zero from the code; example number "80" correspond to size "8").
